

Plant List for High Plains Environmental Center	Last Updated: 3/25/2026
Amelanchier utahensis (Utah Seviceberry)	Height: 15', Width: 6-12', Flower Color: White, Pink, Bloom Time: Mid Spring to Early Summer, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Well-Drained coarse to medium textured soil, including sand, loam, clay loam, Zone: 3-8. Colorado Native
Anaphalis margaritaceae (Pearly Everlasting)	Height: 12-24", Width: 12-24", Flower Color: White, Bloom Time: Mid-Summer to Fall, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Well-Drained, nutrient poor soil, thrives in dry, sandy, or gravelly soil. Zone: 3-8. Colorado Native
Artemisia ludoviciana (Prairie Sage, White Sage)	Height: 12-36", Width: 24-48, Flower Color: Yellow, Bloom Time: Summer, Water Need: Low, Sun Need: Sun, Soil Type: Sandy, rocky, or caly-based soil. Prefers low fertility soil. Zone: 4-9. Colorado Native
Artemisia tridentata (Big Sagebush)	Height: 1-10', Width: 3-10', Flower Color: Yellow, Bloom Time: June-August, Water Need: Low, Sun Need: Sun, Soil Type: well-drained, nutrient poor sandy or gravelly soil, Zone: 4. Colorado Native. Can prune and grow it as dwarf shrub from 1 or a tall shrub to 10 ft tall
Brickelia eupatorioides (False Boneset)	Height: 6', Width: 1-2' Flower Color: White, Pink, Yellow, Bloom Time: Late Summer to Fall, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Thrives in poor, rocky, or sandy soil, Zone: 3-10. Native to Colorado
Campanula rotundifolia (Harebell)	Height: 12-18", Width: 6-12", Flower Color: Blue, Bloom Time: June to Sept, Water Need: Low-Regular, Sun Need: Sun to Part Shade, Soil Type: Well-Drained, thrives in poor to average fertility. Zone: 3-8. Colorado Native
Castilleja linariifolia (Narrow Leaved Painbrush)	Height: 24", Width: 24", Flower Color: Red, Bloom Time: Summer to Fall, Water Need: Low, Sun Need: Sun, Soil Type: Well-drained. nutrient-poor, sandy, gravelly soil, Zone: 4-8. Requires a host plant such as the artemisia. Colorado Native

Fallugia paradoxa (Apache Plume)	Height: 3-6, Width: 3-6', Flower Color: White - Seed heads develops tufts of wispy pink burgundy achenes , Bloom Time: May-Sept, Water Need: Moderate to Low, Sun Need: Sun to Part Shade, Soil Type: Well-drained, nutrient poor soil, such as rocky, sandy, or gravelly type soil. Zone: 4-10. Colorado Native
Glandularia bipinnatifida (Prairie Verbena)	Height: 6-18", Width: 12-36", Flower Color: Pink, Purple, Bloom Time: May-Sept, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Poor, rocky, sandy, clay soil, Zone: 5-8. Colorado Native
Heterotheca villosa (Hairy Golden Aster)	Height: 12", Width: 18", Flower Color: Yellow, Bloom Time: Summer to Fall, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Thrives in sandy, rocky, or gravelly soil, Zone: 3-9 Native to Colorado
Heuchera sp.	
Penstemon gracilis (Slender Beardtongue)	Height: 12", Width: 24", Flower Color: White, Pink, Bloom Time: Spring to Summer, Water Need: Moderate to Low, Sun Need: Sun to Part Shade, Soil Type: Well-drained, sandy, or gravelly soil, Zone: 3-6. Colorado Native
Penstemon palmeri	Height: 3-6', Width: 3-6', Flower Color: White, Pink, Purple, Bloom Time: Spring to Summer, Water Need: Low, Sun Need: Sun, Soil Type: Well-drained, sandy, gravelly soil, Zone: 4-9. Colorado Native
Phacelia hastata (Silver Scorpionweed)	Height: 48", Width: 12", Flower Color: White, Purple, Bloom Time: May to July, Water Need: Low, Sun Need: Part Shade, Soil Type: Well-drained, dry, sandy, or gravelly soil, Zone: 3-12. Colorado Native
Picradanopsis oppositifolia	Height: 4", Width: 4", Flower Color: Yellow, Bloom Time: June to October, Water Need: :pw, Sun Need: Sun Soil Type: Well drained, Zone: 3. Colorado Native
Ribes aureum (Golden Currant)	Height: 4-8', Width: 3-7', Flower Color: Yellow, Bloom Time: Spring, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Clay, Loam , Sandy, Zone: 3-8. Colorado Native
Ribes cereum (Wax Currant)	Height: 2-6', Width: 3-5', Flower Color: White, Pink, Bloom Time: April to July, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Clay, Loam, Sandy, Zone: 5-8. Colorado Native

<p>Ruellia humilis (Prairie Petunia)</p>	<p>Height: 12-24", Width: 12-24", Flower Color: Lavender, Bloom Time: Summer to Fall, Water Need: Low, Sun Need: Sun to Part Shade, Soil Type: Well-drained, Zone: 4-8. Deer-resistant, pollinator garden. Not Colorado Native, but Regionally Adapted.</p>
<p>Stanleya pinnata (Prince's Plume)</p>	<p>Height: 4-5', Width: 2-5', Flower Color: Yellow, Bloom Time: Summer, Water Need: Low, Sun Need: Sun Soil Type: Well-Drained, Zone: 4-9. Colorado Native</p>
<p>Townsendia grandiflora</p>	<p>Height: 2-8", Width: 2-8", Flower Color: White, Bloom Time: Late Spring to Mid Summer, Water Need: Low, Sun Need: Sun, Soil Type: Well-Drained, Zone: 5. Colorado Native</p>
